MAXIMA TURBO CLASS B STERILIZER

Class B Sterilizer is defined by a pre-sterilization vacuum cycle. The class B is considered to be the highest class of autoclave and can be used to sterilize all loads.

Advantages

Industry-leading Speed

Triple-vacuum technology leaves your instruments perfectly sterile and dry in 15 minutes

Designed for Efficiency

Fits up to eight pouches per 15-minute cycle

Quiet Operation

Performs equivalent to a quiet conversation, providing no disruption at your practice

Save Space in Style

Units are portable, stackable, and can conveniently fit into small spaces

Emergency Sterilization Mode

Sterilize unwrapped instruments for immediate use in only seven minutes

Features

- Easy-to-read, high-resolution digital display
- User-friendly one-click, one-button navigation
- Simple installation process
- Built-in USB port for transferring your cycle data right to your PC
- Uses distilled water from external tank

Also Available

Maxima PowerClean 210 Ultrasonic Cleaner
